

1800-port Gigabit Optical Switch

Article Overview

The term "1800-port Gigabit Optical Switch" can refer to either the HP ProCurve 1800 Series managed Gigabit switches or the Huawei OptiX OSN 1800 optical transport series, both designed for high-performance network connectivity.

HP ProCurve 1800 Series

The HP ProCurve Switch 1800 Series consists of fanless, Web-managed Gigabit switches ideal for office and small business environments requiring silent operation and basic network management . Key models include:

- 1800-24G: 24-port 10/100/1000 switch with two dual-personality ports supporting either RJ-45 or mini-GBIC fiber Gigabit connections .
- 1800-8G: 8-port 10/100/1000 switch in a compact form factor . Features:
- Web-based management interface for VLANs, trunking, and basic network control .
- Fanless design for quiet operation in open office spaces .
- ProCurve Lifetime Warranty with next-business-day advance replacement .
- Low-latency, store-and-forward switching suitable for high-speed workgroup networks . These switches are ideal for businesses transitioning from unmanaged to managed networks without significant complexity or cost.

Huawei OptiX OSN 1800 Series

The Huawei OptiX OSN 1800 series is an optical transport network (OTN) solution designed for metro and carrier networks . It integrates WDM and OTN features to provide unified transmission for broadband, private line, and mobile services. Key hi...
