

26-channel distribution box for home use

Article Overview

A 26-channel distribution box provides organized, safe, and flexible power distribution for residential or small-scale applications, with options for metal or plastic enclosures, flush or surface mounting, and IP-rated protection.

Key Features

Material and Build:

- Plastic boxes like the BENY BX26 are made of high thermal stability, flame-retardant materials, and can operate between -25°C to 100°C , offering UV resistance and IP65 protection for dust and water ingress .
 - Metal boxes, such as the Futina FTTL series, are made from cold-rolled iron sheets (0.7-0.8mm thick) with a decorative baffle to prevent dust entry and provide a robust, durable enclosure .
- Mounting Options:
- Flush-mounted: Installed within walls for a clean, integrated look.
 - Surface-mounted: Mounted on walls, easier for retrofitting or maintenance .

Electrical Features:

- Adjustable DIN rails allow flexible installation of MCBs or other modular components.
 - Separate terminals for ground and neutral simplify wiring and improve safety .
 - Some models include universal sockets and high-current (up to 63A) waterproof outlets for versatile power distribution .
- Safety and Standards:
- Many boxes comply with UL, CSA, or local electrical standards, ensuring safe operation in residential environments .
 - Flame-retardant materials, secure copper terminals, and tight-fitting covers reduc...
