

288-core optical cable box and optical distribution box

Overview

The OHC 288 houses 48 feed/pass-thru adapters and 288 distribution adapters for fiber distribution to high density buildings with many potential subscribers. OHC are constructed from powder-coated aluminum that is both durable and lightweight. It can achieve a direct connection and cross-connect between the trunk cable and wiring cable with the function of. This innovative design is an erect and horizontal type with one hinge on one side and opens on another side. It is the most reliable FOSC in the world. Based on an advanced. High quality 288 Core Splice Optical Fiber Distribution Box, Power Distribution Box from China, China's leading product market fiber optic cable box product, with strict quality control power distribution frame factories, producing high quality 288 Core Fiber Distribution Box Products. These PON terminals have space for multiple.
