

86 Dual-Port Information Panel

Overview

TP-LINK 86 Dual-Port Information Panel TL-EF002 is a sleek and versatile faceplate designed to accommodate two network ports, enhancing your structured cabling setup with a professional finish. The panel is designed with rounded corners, and the optical fiber adapter and panel are installed at 45 degrees. Combination structure, front and back double panel design, beautiful appearance, avoid exposed fixing screw holes. With Kolorapus is a factory direct supplier specializing in the research and development of wires and cables and supporting equipment. With its refined gold finish and durable construction, this dual-port panel delivers both function and style, ideal. 86 Panel CAT6 Dual Port White Network Information Module Panel with good quality and factory price, order from Original China OEM factory online shop. Note that the empty module board needs to be purchased separately, allowing you to customize your network. The average amount of time supplier took to respond to every buyer's first message over the past 30 days. The supplier's transactions conducted via Alibaba.
