

Actual Price Quote for Photovoltaic Combiner Boxes

Article Overview

PV combiner box prices vary widely based on capacity, features, and certifications, typically ranging from basic models under \$50 to advanced 1500V units with monitoring and surge protection costing several hundred dollars per unit.

Price Ranges and Configurations

PV combiner boxes serve as central hubs for multiple solar panel strings, consolidating DC outputs before sending power to inverters. Prices depend on the number of input strings, voltage rating, enclosure type, and additional features:

- Basic 4–6 string, 1000V DC, IP65 boxes: Typically priced around \$50–\$120 per unit for standard wholesale orders, suitable for small residential systems .
- Standard 8–12 string, 1500V DC, IP65 boxes: FOB China prices in 2026 range from \$150–\$300 per unit, including branded DC components, fuses, surge protection devices (SPDs), and CE/TÜV certifications .
- Advanced units with monitoring, ground fault detection, and remote communication: Can cost \$300–\$500+ per unit, reflecting the engineering complexity and integrated safety systems .

Cost Structure

The main cost drivers for PV combiner boxes include:...
