

American cable tray fire-resistant manufacturer

Overview

Atkore's US Tray was established in 2012, as an American manufacturer of made-to-order cable trays that are built per NEMA standards and certified by UL. HFJD Cable Tray manufactures high-performance Fire Resistant Cable Trays designed for critical power distribution, fire alarm systems, emergency lighting circuits, and industrial cable management applications. The cable tray is fabricated from premium steel and coated with a durable fire-resistant. Our cable tray systems securely hold and protect cables and come in many models and sizes, solid bottom and ventilated. We offer modern, innovative, and technically advanced cable trays, tray covers and wire management accessories, support, and logistics management. Heavy duty cable trays and cable ladders are manufactured from pre-galvanized, electro-galvanized, or hot-dipped galvanized sheet metal, designed to meet ideal environmental working conditions for indoor and outdoor use in commercial or industrial environments with high cable density. Its design supports cables and equipment, helping to ensure they do not collapse in the event of a fire.
