

Australian Lightweight Cable Tray Manufacturer

Article Overview

Lightweight cable trays in Australia are widely available from suppliers like EzyStrut, Ozstrut, MJS Electrical Supplies, and CNW Electrical, offering easy-to-install, compliant, and durable solutions for commercial and industrial projects.

Key Suppliers and Products

EzyStrut offers lightweight cable trays such as the EzyTray, engineered from a single piece of steel for easy installation, fabrication of bends, risers, tees, or crosses onsite, and available in pre-galvanised or hot-dip galvanised steel with cabling widths from 150-600mm and a 38-40mm cable laying depth . Their trays are suitable for both indoor and outdoor use and can be customized for high-volume or specialist applications . Ozstrut provides a range of cable trays including:

- Perforated Cable Tray: Lightweight, allows airflow to prevent overheating, ideal for fast installation.
- T3 Cable Tray: Standard for industrial/commercial use, stronger than perforated trays, also used in fire-rated systems.
- T5 Cable Tray: Heaviest-duty option with deeper sidewalls for maximum cable capacity . MJS Electrical Supplies stocks a wide range of lightweight cable trays suitable for budget-conscious projects without compromising quality, with options for online ordering and expert guidance . CNW Electrical Wholesaler is a 100% Australian family-owned supplier offering a variety of cable support systems, including lightweight trays for commercial and industrial installations
