

Austrian Standard Cable Tray Specifications

Article Overview

Austrian cable trays are designed according to DIN EN 61537 standards, available in steel, stainless steel, aluminum, and plastic, with various types including ladder, ventilated, and solid-bottom trays for industrial and communication applications.

Types of Cable Trays

Austrian cable trays are available in multiple designs to suit different installation needs:

- Ladder-type trays: Ideal for heavy-duty industrial installations, allowing good ventilation and easy cable management.
- Ventilated trough trays: Provide airflow to prevent heat buildup, suitable for power and data cables.
- Solid-bottom trays: Used where dust or small parts may fall through, often in cleanroom or sensitive environments.
- Plastic trays: Lightweight, corrosion-resistant, and commonly used in communication rooms and computer installations .

Materials

Cable trays in Austria are manufactured from:

- Steel (Q235, electro-zinc plated) for indoor use...
