

Belarus installs electrical distribution box

Overview

ABB will enable the world's largest digital substation with the upgrade of one of the biggest air insulated substations (AIS) ever built for the Belarus Ministry of Energy and its transmission utility Mogilevenenergo. CNC Electric recently delivered a customized low-voltage power distribution cabinet to a manufacturing workshop in Belarus, showcasing our expertise in providing tailored electrical solutions for industrial applications. Speaking about the plans to develop the system, Andrei Panchenko noted that the possibility of further postponement—until 2030—of the implementation time frames for individual elements of the single electricity market of the Eurasian Economic Union (EAEU) is being discussed on the union's platform. This is stated in a document. Russia is nearing the completion of a. Company Riko, Ljubljana from Slovenia has constructed two new substations 110/10 kV (Dolginovskaya and Grushevskaya) and reconstructed another two (Petrovskchina and Vesnyanka) in Minsk, Belarus on turnkey basis. Sipro Inzeniring has performed for Riko engineering activities for electrical portion.
