

Belgian Data Center Hot Access Bestseller

Article Overview

Top Belgian data centers offering high-performance hot access include NRB Cloud, Proximus Cloud, Cegeka, and Microsoft Azure Belgium, providing secure, low-latency, and scalable services.

Leading Data Center Providers in Belgium

NRB Cloud operates multiple data centers in Herstal, Villers-le-Bouillet, and the Brussels–Antwerp region. Their facilities feature Tier III+ availability, geo-resilient design, and services such as private and hybrid cloud, IaaS, managed hosting, virtualization, backup, and disaster recovery. NRB ensures data remains in Belgium and complies with ISO/IEC 27001, ISO 9001, ISO 20000-1, ISO 14001, and GDPR-aligned DPAs, making it a top choice for enterprises requiring high-performance hot access. Proximus Cloud maintains redundant data centers in Evere and Machelen with active-active design for high availability. They offer private cloud VMs, managed Kubernetes, networking, security services, and hybrid connectivity. Proximus data centers are ISO/IEC 27001 certified and provide ISAE 3000 / SOC 2 Type II attestations, ensuring compliance and secure local data storage under Belgian jurisdiction. Cegeka operates data centers in Belgium and other EU countries, with Belgian-only deployment options available. Their services include cloud hosting, colocation, and managed IT solutions, catering to clients who require strict data residency and low-latency access. Microsoft Azure Belgium launched its first cloud region in Brussels, providing locally available cloud services with fast, secure, and scalable access. This infrastructure supports AI, HPC, and enterprise workloads, enh...
