

Belgian trapezoidal cable trays are reasonably priced

Article Overview

Exact pricing for Belgian trapezoidal cable trays is typically provided via direct quotes from suppliers like Trayco, as public price lists are not widely available.

Overview

Belgian manufacturers such as Trayco specialize in producing high-quality cable trays, including trapezoidal, ladder, and mesh types, tailored for industrial and commercial installations . Prices depend on material (steel, stainless steel, or coated), tray dimensions, load capacity, and standard length, which is often around 2.4 meters for ladder-type trays . Fittings and accessories are usually priced per unit.

How to Obtain Pricing

- Request a Quote from Suppliers: Trayco offers customized quotes based on project requirements. You can contact their sales team to specify tray type, dimensions, and quantity .
- Consider Material and Finish: Hot-dip galvanized steel is common for durability, while stainless steel or powder-coated trays may cost more .
- Include Fittings and Accessories: Elbows, tees, reducers, and supports are priced separately, often per piece .
- Volume Discounts: Large orders may qualify for discounts, which are typically negotiated directly with the supplier.
