

# Botswana Standard Cable Tray Prices

## Article Overview

The cost of a standard cable tray in Botswana typically ranges from \$20 to \$60 per meter, depending on material, type, and installation factors.

### Pricing Overview

The price of cable trays in Botswana varies based on material, size, coating, and supplier. For steel cable trays, the total installation cost per meter—including labor and additional expenses—can range from \$20 to \$60 per meter. Wire mesh trays, commonly used for lightweight cabling, are generally more affordable, while ladder trays designed for heavy-duty applications cost more. For example, a steel tray priced at \$25 per meter would cost roughly \$7.50 to \$8 per foot.

### Material and Type Considerations

- Galvanized steel: Most common, balances durability and cost.
- Stainless steel: Corrosion-resistant but more expensive.
- Aluminum: Lightweight and rust-proof, pricier than steel.
- Plastic/PVC trays: Budget-friendly, suitable for light loads.
- Wire mesh trays: Cheaper and ideal for IT or office setups.
- Ladder trays: Higher cost, suitable for heavy cables.

### Additional Cost Factors

- Coating: Hot-dip galvanizing (HDG) or powder coating increases durability and cost
