

Cable tray and pipe price

Article Overview

Cable trays typically cost \$2–\$50 per meter depending on material and type, while metal pipes (conduits) are generally more expensive to install due to labor-intensive installation.

Cable Tray Pricing

The cost of cable trays varies widely based on material, type, size, and finish:

- Galvanized Steel: \$2–\$10 per meter for standard trays; pre-galvanized is cheaper, hot-dip galvanized is more durable for outdoor use .
 - Aluminum: \$8–\$20 per meter; lightweight and corrosion-resistant, reducing support costs .
 - Stainless Steel: \$15–\$40 per meter; ideal for high-heat, chemical, or hygienic environments .
 - Plastic (FRP/PVC): \$8–\$25 per meter; suitable for lightweight, non-conductive applications . Tray types also affect pricing:
 - Ladder trays: \$15–\$50 per meter, suitable for heavy-duty industrial cabling .
 - Perforated trays: \$10–\$40 per meter, common in commercial installations .
 - Wire mesh trays: \$8–\$30 per meter, ideal for IT and data centers .
 - Solid bottom trays: \$12–\$45 per meter, for shielded cable protection .
- Additional costs include supports, brackets, fittings, and covers, which can add 20–30% to the total installation cost .
