

# Cable tray bend price 45 degrees

## Article Overview

The price of a 45-degree cable tray bend varies depending on material, size, and duty rating, typically ranging from \$20 to \$150 per piece, with exact pricing available from suppliers.

### Types and Materials

- **Medium Duty 45-Degree Flat Bend:** Made from pre-galvanised low carbon steel, suitable for standard installations. These bends often include built-in couplers for easy connection and are designed for fixed angular changes in the same plane .
- **Heavy Duty 45-Degree Bend:** Available for tray widths such as 300mm or 450mm, made from hot-dipped galvanised (HDG) steel for durability and corrosion resistance. These are ideal for industrial or commercial applications requiring strong, secure connections .
- **Stainless Steel 45-Degree Elbows:** For applications requiring frequent washdown or high corrosion resistance, stainless steel (SS304) brushed finish bends are available, typically for smaller tray sizes like 4x4 inches .

### Sizing Considerations

- **Tray Width:** Bends are manufactured to match specific tray widths (e.g., 300mm, 450mm). Choosing the correct width ensures proper fit and load capacity.
- **Duty Rating:** Medium duty is suitable for light to moderate cable loads, while heavy duty is designed for high-capacity or industrial installations.
