

Canadian cold joint manufacturer

Overview

Canada's largest manufacturer and distributor of expansion joints, flexible metal and PTFE hose, flexible connectors and cryogenic equipment for pressure and tubing systems. Established in 1952, Senior Flexonics Canada is headquartered in Brampton, Ontario, with a branch office. Our tubing pup joints are manufactured out of seamless tubing and machined or upset to final dimensions. Special requirements are available on request. Inconex Com carries a large inventory of API Coupling Stock. WestCan specializes in providing proven high-quality tubular accessories at the right time, in the right size and at the right price. That's why we oversee the manufacturing of most of our products – in accordance with relevant API Specifications. produces complete cold formed parts to near net shape, eliminating the need for secondary operations and maximizing the raw materials use. Our progressive spirit continually allows us to strive for excellence and. ISO certification, multiple high speed 100% inspection capabilities, in house tooling to support our state of the art cold heading machines. From thread rolls and attachments to machine dies, CJWinter offers custom solutions for your material forming needs.
