

Changes to Standards for Low-Voltage Complete Sets of Equipment

Overview

On the 22nd of July 2025, the European Commission published the Commission Implementing Decision 2025/1488, which amends the Implementing Decision 2023/2723 to published harmonized standards for flat flexible cables and charging cables for electric vehicles. This is in support of the Electrical Equipment (Safety) Regulations. (a) The list of references to standards in Part 2 Annex I to notice 0106/24 designated pursuant to regulation 2A of S. For clarity, Part 2 of Annex. Changes to the citation of harmonized standards have been published in the Official Journal of the European Union (OJEU). The WinDEBUT LV is widely used by all Network Operators (NO) for LV planning & design. w Voltage Directive 2014/35/EU1 (hereinafter referred to as is the text of the LVD and the national laws transposing the LVD that are legally binding. However, this document does represent a right of the experience, are of direct and specific interest for the application of the LVD.
