

Communication Power System Cable Management Frame

Overview

CMS provides structured and organized solutions for installing power and communications cables across various types of enclosures, including two- or four-post open-frame racks, wall-mount cabinets, and free-standing cabinets. CommScope offers a variety of easy-to-install frames, racks and cabinets specially engineered for network equipment and fiber cable management. Our vast selection of cabinets, thermal management, racks, enclosures for data centers, telecommunications equipment rooms, and enterprise cabling applications help optimize space, reduce energy consumption, and enhance network reliability. FlexFusion™ Cabinets XG offer a unique universal platform. With it's introduction in 1994, the Mighty Mo® line of cable management racks has been the benchmark open-frame rack in the industry, providing a solid foundation for the rest of our cable management products. Products include vertical and horizontal cable managers, rear cable managers, hook and loop fasteners, zone and wireless. Enter Cable Management Systems (CMS) — a crucial element in establishing order within a data center.
