

Comoros Large Span Cable Tray Prices

Article Overview

Large span cable trays in Comoros are available in wire mesh, galvanized steel, and alloy/plastic options, with prices varying by material, size, and supplier.

Wire Mesh Cable Trays

Wire mesh trays are popular for their resizability, ventilation, and multipurpose use. For example, Kable Kontrol wire mesh trays measuring 10 feet long × 4 inches wide × 2 inches high are available in packs of 30 pieces through Ubuy Comoros. These trays are zinc-plated steel, NEC approved, and suitable for network, fiber optic, and general cabling applications. Prices are competitive and include express shipping to Comoros, though exact costs depend on the order size and shipping method .

Galvanized Steel Cable Trays

Electroplated or galvanized steel trays offer high corrosion resistance and mechanical strength, making them ideal for heavy-duty or outdoor installations. Suppliers like etrailer provide galvanized trays suitable for industrial applications, though pricing is typically custom-quoted based on dimensions, load capacity, and quantity. These trays are durable and can support long cable runs without sagging, making them suitable for large span installations .

Alloy and Plastic Cable Trays

For lighter applications or environments requiring non-conductive materials, alloy or plastic cable trays are available through platforms like Instacart Comoros. These tra...
