

Companies mainly engaged in optical modules

Article Overview

Key global players in the optical modules market include Innolight, II-VI (Finisar), Huawei, Lumentum, Ciena, Infinera, Eoptolink, and Accelink.

Leading Optical Module Manufacturers

Innolight (Zhongji Innolight Co., Ltd.) is a global leader in high-speed optical communication modules, offering solutions for data centers and telecom networks, including 100G, 200G, 400G, and 800G modules. The company integrates R&D, design, packaging, testing, and sales, and has a strong presence in backbone and core network transmission modules. II-VI Incorporated acquired Finisar, a top optical module supplier, and is recognized for its high-performance optical transceivers and integrated photonics solutions. Huawei (HiSilicon) ranks among the top suppliers, producing coherent DWDM modules and high-end optical devices for telecom and data center applications. Huawei has invested heavily in local supply chains to secure IC chips and maintain production despite global restrictions. Lumentum specializes in high-speed optical modules for data centers and telecom networks, focusing on scalable and reliable solutions. Ciena provides innovative optical networking solutions and flexible modules suitable for large-scale deployments. Infinera offers integrated photonics and modular optical solutions, supporting high-capacity networks and cloud infrastructure. Eoptolink is a Chinese optical module solution provider, producing a wide range of high-performance modules and optical devices for ICT industries, including data centers, FTTx, LTE, and smart grids. Accelink Technologies is a leading global optical communication supplier with a full industry...
