

Complete List of Latest Fiber Optic Cable Splicer Models

Article Overview

The latest fiber optic splicers for 2026 include top models from Fujikura, Sumitomo, INNO, and KOMSHINE, covering core alignment, cladding alignment, single-fiber, and ribbon-fiber applications.

Premium Core Alignment Splicers

These splicers offer high-precision core alignment, ideal for backbone networks and critical infrastructure:

- Fujikura FSM-90S+ – Industry-leading core alignment, low splice loss (~ 0.02 dB), fiber discrimination for G.652, G.657, and multimode fibers, fast splice (7s) and heat (9s) times, ideal for professional backbone installations .
- INNO View 8+ – Advanced core alignment with smart features, cloud syncing, and automated calibration, suitable for high-density networks .
- Sumitomo Type-72C+ – Reliable core alignment splicer with durable design, optimized for telecom and enterprise networks .

Cladding Alignment Splicers

Budget-friendly options for FTTH, LAN, and smaller projects:

- Fujikura 45S – Active cladding alignment, portable, lightweight, and accurate for field installations
