

Customized Explosion-proof Distribution Boxes for Tunisia

Article Overview

Yes, explosion-proof distribution boxes in Tunisia can be fully customized to meet specific industrial and hazardous area requirements.

Customization Options

Explosion-proof distribution boxes can be tailored in terms of:

- **Materials:** Stainless steel (AISI 304L, 316L), glass-reinforced polyester (GRP), or other corrosion-resistant materials suitable for harsh environments .
- **Dimensions and Layout:** Boxes can be designed to specific sizes, internal layouts, and modular configurations to accommodate wiring, terminals, and control equipment .
- **Protection Levels:** Options include IP66 or higher for dust and water resistance, suitable for zones 1, 2 (gases) and 21, 22 (dusts), .
- **Functional Features:** Hinged doors, side-opening latches, operating handles, windows for monitoring, and pre-assembled internal wiring for easier installation .
- **Electrical Configurations:** Custom terminal arrangements, circuit breakers, and compatibility with intrinsically safe circuits .

Certifications and Compliance

Customized boxes are typically ATEX and IECEx certified, ensuring safe operation in hazardous areas with explosive gases or dust . These certifications are essential for...
