

Direct Sales of Norwegian Relay Protection Testers

Article Overview

Norwegian relay protection testers can be sourced directly from leading international manufacturers and distributors, offering advanced microprocessor-based and IEC 61850-compliant devices for power system testing.

Key Suppliers and Products

Several global manufacturers provide relay protection testers suitable for direct purchase in Norway:

- Megger: Offers a wide range of relay test sets, including the SMRT46 and FREJA series, capable of three-phase and six-current testing, as well as IEC 61850 network testing. Their devices include onboard software for automated testing, GOOSE signal simulation, and sampled value analysis, eliminating the need for a PC connection and enhancing cybersecurity .
- DirectIndustry-listed brands: Includes MEGGER, OMICRON, WUHV, and others, offering products like the HDJB-8000, RELAYSTAR-H60, and GDJB-802, which support multi-phase current and voltage outputs, closed-loop testing, and secondary injection testing without disturbing protective system wiring .

Applications and Features

Relay protection testers are essential for:...
