

Double-row 30-circuit distribution box

Overview

NX30 series surface/flush mounting distribution box (box) is suit for installing 9mm module modular terminal electrical components. it has the characteristics of modular electrical dimensions, installation guide rail, artistic appearance, safe use, it is suitable for. Product: Standard galvanized steel distribution box for lighting/power circuits. · Material: Galvanized steel enclosure, powder-coated. · Circuits: 6 to 60 ways (6, 12, 18, 24, 36, 45, 60 standard). Chat with supplier now for more details. PZ30 lighting distribution box is suitable for frequency 50HZ, rated voltage 500V and below, load current is not greater than 100A single-phase and three-phase circuits, for power and lighting, motor control, overload, leakage and short circuit Road protection. ABB offers a total ev charging solution from compact, high quality AC wall boxes, reliable DC fast charging stations with robust connectivity, to innovative on-demand electric bus charging systems, we deploy infrastructure that meet the needs of the next generation of smarter mobility. We are a factory specializing in Indoor Metal Box.
