

FC pigtail model parameters and specifications

Overview

FC/APC single mode fiber optic pigtail combining threaded screw-type coupling with 8-degree angled polish for maximum return loss of 60dB or greater. Green connector body for APC identification. 9mm cable diameter, UPC/PC and APC versions, SM, MM, OM3 and OM4 modes. Meanwhile, we also provide riser-rated fiber pigtails. Ideal for CATV, FTTH/FTTX, telecommunication networks, premise installations, data processing networks, LAN/WAN network, and more. Fiber pigtail is an important component of fiber network. It is at the end of the SC/LC/ST/FC/E2000 /. telecommunication systems. Its unique FC connector interface ensures precise docking between optical fibers, thereby reducing insertion loss and improving signal transmission. The fiber pigtails are designed to support fusion and mechanical splicing for fiber cabling systems. We also provide a full set of customized services, such as fiber counts. The LongXing brand of fiber cable assemblies are designed and manufactured in LongXing's ISO9001 registered facility, which are fully qualified to RoHS standards.
