

Fiber Optic Cable Duct Rescheduling Fee

Overview

Typical rates range from \$75 to \$180 per hour per technician, with on-site time often dominating the total. Hidden costs include traffic control, trench restoration, and post-repair verification testing. The cost to fix a fiber line often hinges on the fault type, distance, and response time, with price ranges reflecting differing crews and materials. This guide provides clear cost estimates, price ranges. I'm looking for some info on pricing, not sub pricing but what's an average the prime contractor is getting on blowing/pulling cable and boring 1 1/4" down to 3/4" and also plowing rates for same size duct, just curious and trying to see how much difference subs get on these vs what the prime is. ing and blowing a cable in a duct and the impact on the cable designs. These fibers are thin strands, often as small as a human hair, that transmit data as pulses of light.
