

Fiber Optic IDC

Overview

IDC fiber optic connectors (IDC stands for Insulation Displacement Connector) are advanced fiber termination solutions that allow you to quickly connect optical fibers without the need for epoxy, polishing, or expensive fusion splicing equipment. Often referred to as mechanical splice connectors or. Based in Silicon Valley, California Bay Area, Fosco has delivered expert optical solutions since 2001. We leverage a large inventory for fast shipping and specialize in custom fiber optic cable assemblies with rapid turnaround times. For a quote, email sales@foscoconnect. Prolongs moisture and water from degrading connection, increasing confidence in network utility in spite of harsh and inclement. Converged Plantwide Ethernet (CPwE) is the underlying architecture that provides standard network services for control and information disciplines, devices, and equipment found in modern industrial automation and control system (IACS) applications. It's stable, waterproof and dust-proof.
