

Fiber Optic Terminal Box 205

Article Overview

Fiber Optic Terminal Box Type 205 is a versatile FTTH/FTTX termination solution available in indoor and outdoor ABS plastic enclosures, supporting multiple fiber adapters and splicing configurations.

Overview

The Fiber Optic Terminal Box Type 205 is designed as a termination and distribution point for fiber optic networks, particularly in FTTH (Fiber to the Home) and FTTX deployments. It provides a secure and organized environment for fiber splicing, termination, and patching, ensuring proper management of fiber slack and bend radius.

Key Features

- **Material and Build:** Made of durable ABS plastic for indoor units, and some models use PP+GF for outdoor IP65-rated protection, offering water, dust, and anti-aging resistance .
- **Mounting Options:** Can be wall-mounted or pole-mounted, suitable for residential buildings, villas, or business premises .
- **Port and Adapter Capacity:** Supports 2 to 16 SC or LC adapters, depending on the model. Indoor units typically support 2 ports with LC or SC adapters, while outdoor units can accommodate up to 16 cores .
- **Splicing and Termination:** Allows mechanical or fusion splicing, with internal routing for fiber slack management and maintaining proper bend radius .
- **Cable Access:** Multiple cable inlets from the bottom and sides provide flexibility fo...
