

Fiber optic cable installation along roadside in Malaysia

Overview

This document discusses fiber optic installation standards for Malaysia. It covers topics like fiber types used, fusion splicing, indoor and outdoor fiber cable specifications, fiber termination boxes, wall sockets, manholes, ductways and more. Since our inception in 2011, we employed our services, solutions and expertise in various Malaysian fiber optic and telecommunication. A next-generation fiber network built for nationwide coverage, offering open access, scalable bandwidth, and ultra-reliable low-latency connectivity for enterprises, telecom providers, and government initiatives. We implement open-cut, micro-trenching and trenchless drilling methods like horizontal directional drilling (HDD) techniques. Fiber Cable Supply and Installation: We provide high-capacity 144-core fiber optic. Fiber Rules Sdn Bhd has been delivering innovative telecommunication and infrastructure solutions since 2020.
