

Fireproof optical cable tray supplier

Article Overview

Leading manufacturers of fireproof optical cable trays include Meka Pro, NewReach, LONGJOY, Basor Electric, and HERMI Solutions, offering fire-resistant systems for critical infrastructure and emergency installations.

Key Manufacturers and Products

Meka Pro specializes in fire-resistant cable support systems tested according to EN 1363-1 standards. Their products ensure electricity supply continuity during fires, prevent collapse of cable management systems, and use materials that do not emit toxic gases, making them suitable for critical installations like emergency lighting and fire alarms. NewReach offers fire-rated cable trays designed to maintain structural integrity under high temperatures. Their trays are available in powder-coated aluminum, galvanized steel, and fiberglass with intumescent coatings. They comply with ISO 834-1, EN 1363-1, DIN 4102-12, and AS/NZS 3013:2005 standards, providing up to 2-hour fire resistance at 1050°C. These trays are ideal for protecting electrical and communication systems during emergencies. LONGJOY produces fireproof channel cable trays with a galvanized steel skeleton coated with a fireproof layer. The coating is non-toxic, environmentally friendly, and provides excellent fire, water, and oil resistance. These trays are commonly used in fire control rooms, fire pumps, smoke fans, and automatic fire alarm systems, ensuring high load capacity and long service life. Basor Electric focuses on cable trays tested for fire resistance to maintain the functionality of critical electrical installations such as smoke extractors, emergency lighting, and fire alarms. Their systems are designed to comply with European and international standards, ensuring circuit integrity under extreme fire conditions. HERMI Solutions provides E90 fire-resistant cable trays for constructing...
