

Flame-retardant electrical distribution box

Overview

Flame-retardant distribution box: 650°C fire-resistant material stops spread, protects circuits from overloads/shorts. Compliant, easy to install—ideal for homes, commercial & industrial safety. ABB offers an innovative enclosure system for fire prevention, which is constructed of fireproof materials, features optimum technology and is available in a variety of economical designs. A wide range of wall enclosures (flush/surface/enclosure) and floor-standing enclosures (surface) are. The present invention relates to an explosion-proof and flame-retardant distribution box, comprising an electric box main body. The electric box main body comprises an upper cavity and a lower cavity, a flame-retardant partition plate is connected between the upper cavity and the lower cavity, and. Standard nominal technical parameters of the distribution box: 1 to 4 channels: 50A; 6 to 18 channels: 63A Material insulation: fire-resistant refractory; color: white; Standard: compliant with IEC Standard 060439 - 3 IEC 60529 protection class: IP 30; fire protection and normal heat resistance IEC. Safely conduct, connect and distribute energy in hazardous areas with R. We offer bespoke, custom-made terminal boxes and terminal box combinations, as well as standard products with short delivery times. Our products are certified for installation technologies all over the. Crouse-Hinds series EJBA enclosures provide IEC Ex d flameproof protection in Zones 1, 2, 21 and 22 hazardous areas. Available as Ex certified (Sira 08 ATEX 3212 or IECEx SIR 13. 0038X and fitted with an M6 earth stud).
