

Flexible Armored Optical Cable Manufacturer

Article Overview

Leading suppliers of flexible armored optical cables include OCC, TiniFiber, FTTMAX, and Fibertronics, offering durable, bend-insensitive, and rodent-resistant solutions for demanding environments.

Key Companies and Offerings

1. Optical Cable Corporation (OCC) OCC is a pioneer in fiber optic cable manufacturing with over 30 years of experience. They provide high-performance, flexible armored cables suitable for industrial, broadcast, and military applications. Their SMPTE FLEX cables feature aramid yarn central strength members for increased flexibility and reduced weight, making them ideal for installations where mobility and durability are critical. OCC also offers pre-terminated and custom solutions with robust protection against environmental stress and mechanical damage . 2. TiniFiber TiniFiber specializes in U.S. patented Micro Armor Fiber optical cabling solutions. Their products are ultra-small, lightweight, and highly rugged, designed for harsh environments. TiniFiber cables maintain flexibility while providing crush-proof and rodent-resistant protection, making them suitable for outdoor and OSP (outside plant) installations. They also offer specialized tools for installation that preserve fiber integrity . 3. FTTMAX FTTMAX provides indoor flexible armored optical cables coated with spiral or braided metal armor. These cables resist tension, bending, and rodent damage while remaining compact and easy to handle. They are available in bulk or pre-terminated formats and support bend-insensitive fiber types such as OS2, OM1, OM2, OM3, OM4, and OM5. FTTMAX emphasizes convenience in wiring and reduced...
