

French electrical distribution box models

Article Overview

French electrical distribution boxes include single-phase, three-phase, surface-mounted, flush-mounted, and smart DB boxes, each designed for specific residential, commercial, or industrial applications.

Main Types of Distribution Boxes

- Single-Phase Distribution Boxes
 - Commonly used in residential settings.
 - Designed for lower power loads and typically contain fewer circuit breakers.
 - Can be surface-mounted or flush-mounted depending on installation needs .
- Three-Phase Distribution Boxes
 - Used in commercial and industrial environments.
 - Capable of handling higher power loads, suitable for factories or large buildings.
 - Often include a main circuit breaker for overall system protection .
- Surface-Mounted Boxes
 - Installed directly on walls, providing easy access.
 - Ideal for industrial or outdoor environments where accessibility is important .
- Flush-Mounted Boxes
 - Integrated into walls for a cleaner appearance.
 - Common in modern homes and office interiors .
- Smart Distribution Boxes
 - Equipped with advanced features such as remote monitoring, energy managemen...
