

Full range of cable tray products

Article Overview

Yes, leading suppliers offer a full range of cable tray products, including ladder, perforated, wire mesh, and closed trays, with extensive accessories and material options.

Types and Configurations

Modern cable tray systems cover a wide variety of types to suit different applications:

- Ladder trays for heavy cable loads and optimal ventilation
 - Perforated trays for medium loads and improved airflow
 - Wire mesh trays for flexibility, cleanliness, and fast installation
 - Closed-bottom trays for environments requiring cable protection and isolation
- These trays are available in multiple heights, widths, and depths, typically ranging from 12mm to 50mm deep and 50mm to 900mm wide, with standard lengths of 3 meters for easy installation and modularity (Metsec) .

Material Options

Cable trays are manufactured in a variety of materials to suit different environments:

- Mild steel (pre-galvanised or hot-dip galvanised)
 - Stainless steel (grade 316L for corrosive environments)
 - Aluminium for lightweight applications
 - Fiberglass (FRP/GRP) for chemical or offshore environments
- These options ensure durability, corrosion resistance, and compliance with industrial standards
