

Galvanized cable tray current price

Article Overview

Galvanized cable trays typically range from \$0.40 to \$25 per meter, depending on type, coating, size, and order quantity.

Price Range and Factors

The cost of galvanized cable trays varies widely based on material, surface treatment, and design. Hot-dip galvanized (HDG) trays are more durable and suitable for outdoor or corrosive environments, generally costing more than pre-galvanized or powder-coated trays. Prices can range from \$0.40 per meter for large-volume orders to \$2-\$25 per meter for smaller or specialized configurations, with ladder trays and heavy-duty designs at the higher end of the spectrum . Key factors influencing price include:

- Material type: Galvanized steel is standard; stainless steel or aluminum is more expensive .
- Tray type: Ladder, perforated, or wire mesh designs affect cost.
- Surface finish: HDG, powder coating, or epoxy coatings impact durability and price .
- Order quantity: Bulk orders reduce per-unit cost; small trial orders may incur extra fees .
- Customization: Non-standard sizes or OEM designs can increase cost .
- Shipping and installation: Heavier trays and complex installations add to total project cost .
