

Georgia Optical Cable Project Construction

Overview

March 4, 2025 – Lumos Fiber announced Tuesday it plans to build 5,000 miles of fiber optic internet infrastructure through the state of Georgia. This will be the company's first project in Georgia, and the ninth state it will provide with internet services.

Project Description: This Design-Build project includes the design & construction services for the expansion of the Broadband Network & Connected Vehicle Infrastructure along the following locations: ∩ I-75 from SR 92 to the Tennessee state line ∩ I-16. The State of Georgia is transitioning to a new Enterprise Resource Planning system, GA@WORK. By expanding its fiber network, Lumos aims to. System Maintenance: "Respond Now" and "Register with GA@WORK Marketplace" functionality will not be available due to Jaggaer's scheduled system maintenance from Friday, July 17th at 9 p. ET through Sunday July 19th, 12 pm ET.
