

Grounding of the distribution box casing CAD

Overview

Grounding of the units: Attach a ground wire from one of the threaded studs (A) at the bottom of the housing, to the mounting plate (B). The ground resistance between. This Grounding Equipment CAD Block (DWG) is a free AutoCAD drawing designed for electrical engineers, contractors, and designers working on power distribution and safety systems. The file includes precise measurements of the 77 cm by 82 cm ZC-type sidewalk utility box, top view and sectional. In industrial and civil circuit wiring, the stainless steel monitor enclosure device serves as the physical casing for various switches and control components. 3 million companies actively sourcing product information and technical data from over 195 different countries. © TraceParts. Power from factory ground must be installed by a qualified electrician. Each DISTRIBUTION BOX and controller must be grounded.
