

How much does 700-800 meters of fiber optic cable cost per meter

Article Overview

The cost for 700-800 meters of fiber optic cable typically ranges from \$455 to \$4,000 or more, depending on type, protection, and installation requirements.

Estimated Material Costs

- Standard indoor single-mode cable: \$0.10-\$0.50 per meter. For 700-800 meters, this totals approximately \$70-\$400 .
- Standard indoor multimode cable (OM3/OM4): \$0.30-\$1.00 per meter, totaling roughly \$210-\$800 .
- Armored or outdoor-rated cable: \$0.50-\$5.00 per meter, which can bring the total to \$350-\$4,000 depending on environmental protection and fiber count .

Factors Affecting Cost

- Fiber Type and Count: Single-mode is generally cheaper than multimode. Higher strand counts (e.g., 24-core or 96-core) increase the price proportionally .
- Cable Construction: Armored cables or those rated for direct burial or harsh outdoor conditions cost more than standard indoor cables .
- Jacket Material: LSZH (Low Smoke Zero Halogen) jackets are more expensive than PVC but are safer for indoor use .
- Installation Considerations: While the above estimates cover materials only, adding labor, trenching, conduit, splicing, and connectors can significantly increase total project costs
