

How much does a 48-port access switch cost

Article Overview

A 48-port access switch typically costs between \$200 and \$2,500, depending on features, brand, and management capabilities.

Price Ranges by Type

- **Unmanaged 48-Port Switches:** These are basic plug-and-play switches without advanced management features. Prices generally range from \$200 to \$400 for gigabit models suitable for small offices or home labs (Amazon listings, Comms Express) .
- **Managed 48-Port Switches:** These switches offer advanced features like VLANs, QoS, link aggregation, and SFP uplinks. Prices typically range from \$500 to \$1,500, depending on brand and capabilities (Netgear, Comms Express) .
- **PoE (Power over Ethernet) 48-Port Switches:** Switches that provide PoE to connected devices, such as IP phones or access points, cost more due to the power budget. Entry-level PoE models start around \$400, while high-capacity PoE+ switches can reach \$1,500 to \$2,500 (Amazon, Comms Express) .
- **Enterprise-Grade or Cisco 48-Port Switches:** High-end switches with advanced Layer 3 features, redundancy, and high throughput can cost \$1,500 to over \$2,500, especially for models with SFP+ uplinks or stackable configurations (Cisco Global Price List, Comms Express) .

Factors Affecting Cost

- **Management Features:** Managed switches are more expensive than unmanaged o...
