

How much does a meter of Estonian wire mesh cable tray cost

Article Overview

Wire mesh cable trays in Estonia typically cost between \$2 and \$25 per meter, depending on material, size, and coating.

Price Overview

Wire mesh cable trays are generally more affordable than ladder or solid trays due to their lightweight design and ease of installation. In Estonia, suppliers such as Jeetmull Jaichandlall offer competitive pricing for bulk orders, making them cost-effective for commercial and industrial projects. The price per meter can vary based on:

- **Material:** Steel is the most common and economical, while stainless steel is more expensive due to corrosion resistance. Aluminum trays are lightweight but cost more than steel.
- **Coating:** PVC-coated or powder-coated trays provide extra durability and corrosion protection, slightly increasing the price.
- **Size and Thickness:** Wider or thicker trays designed for heavier cable loads cost more per meter.
- **Order Quantity:** Bulk purchases can reduce the unit price by 20–40%.

Installation and Additional Costs

While the tray itself may be inexpensive, supports, brackets, and corner fittings can...
