

How much does outdoor optical cable cost in Burkina Faso

Article Overview

Outdoor fiber optic cable in Burkina Faso typically costs between \$0.70 and \$1.00 per foot for the cable itself, with total installed project costs ranging from \$4,940 to \$14,500 for medium to large runs.

Cable Pricing

The cost of outdoor fiber optic cable depends on several factors: type (single-mode or multimode), whether it is armored, and the number of fibers. Single-mode cables are preferred for long-distance transmission and are slightly more expensive, while multimode cables are suitable for shorter distances and are cheaper. Armored cables, designed for harsh outdoor conditions, add to the cost due to protective layers against weather, rodents, and mechanical damage. Based on typical project estimates, a 2,000 ft outdoor run with conduit and four terminations costs approximately \$0.70 per foot for the cable, with total project costs (including labor, permits, delivery, and accessories) around \$4,940-\$6,120. For a 5,000 ft run with armored cable and multiple splices, the cable itself may cost \$1.00 per foot, with total installed costs reaching \$11,000-\$14,500.

Installation and Additional Costs

Installation costs in Burkina Faso may vary depending on local labor rates, terrain, and regulatory requirements. Key cost components include:...
