

Huijue Fiber Optic Waterproof Junction Box Price

Article Overview

The price of Huijue fiber optic waterproof junction boxes varies by model, fiber capacity, and material, and is typically provided upon request from the supplier.

Huijue fiber optic junction boxes are designed for indoor and outdoor fiber optic network distribution, offering IP65 waterproof and dustproof protection suitable for harsh environments. They are made from stainless steel, cold-rolled steel, or aluminum alloy, and support various fiber capacities ranging from 12 cores up to 144 cores, compatible with SC, LC, FC, ST, or MPO/MTP adapters. Installation options include wall-mounting or pole-mounting, and the boxes feature single front door access for easy maintenance. Pricing depends on several factors:

- Fiber capacity/core count (e.g., 12, 24, 48, 96, 144 cores)
 - Material and sheet thickness (1.0mm, 1.2mm, 1.5mm)
 - Adapter type and number of cable entry ports
 - Shipping location and delivery terms
- For accurate pricing, it is recommended to contact Huijue or their authorized distributors directly via platforms like Alibaba or Made-in-China, where suppliers can provide custom quotes based on your specific requirements. Some listings also allow negotiation of shipping fees and delivery dates. In summary, while a fixed price is not publicly listed, Huijue fiber optic waterproof junction boxes are customizable and competitively priced, with suppliers ready to provide quotes tailored to your project needs.
