

Indoor price of 4-core single-mode optical cable

Article Overview

The price of a four-core single-mode indoor optical cable typically ranges from \$0.50 to \$2 per meter, depending on quality, jacket type, and additional features.

Pricing Overview

The cost of a 4-core single-mode indoor optical cable varies based on several factors:

- **Material and Quality:** High-quality cables use pure quartz fibers, aramid yarn reinforcement, and flame-retardant jackets, which increase durability and performance, raising the price .
- **Jacket Type:** LSZH (Low Smoke Zero Halogen) or PVC jackets affect cost. LSZH is safer for indoor use but slightly more expensive .
- **Length:** Prices are often quoted per meter or per spool. Bulk purchases usually offer discounts, making longer runs more economical .
- **Pre-Termination:** Cables pre-terminated with connectors like LC, SC, or FC carry a premium due to labor and precision involved .
- **Certifications:** CE-certified or ITU-T G.652.D compliant cables ensure reliability and may cost more .

Typical Price Examples

- **Alibaba bulk listings:** Indoor 4-core single-mode cables are available for around \$0.50-\$1.50 per meter for large orders
