

Intelligent Dedicated Distribution Box

Overview

The intelligent integrated distribution cabinet series is a multifunctional intelligent chassis that can support high power demand. The range of applications extends from pure energy distribution in buildings to building automation and through to industrial plants. SMART DISTRIBUTION BOXES FOR FLEXIBLE BUILDINGS. It comprehensively utilizes big data, cloud computing, and mobile internet to build an intelligent temporary power box management platform. Our flexible distribution boxes enable reliable, decentralized signal transmission and power transmission up to protection class IP67 – wherever passive distribution boxes are required. They are a phenomenon which are changing the world we are living in. Thanks to their platform concept, REDline Power Boxes are ideal for implementing a.
