

Ivory Coast Server Rack System IP65 Installation Solution

Article Overview

Deploying an IP65-rated server rack in Ivory Coast requires rugged, weatherproof enclosures with flexible configuration, cooling, and power management to ensure reliable operation in outdoor or harsh environments.

IP65-Rated Server Racks

IP65 enclosures are dust-tight and protected against water jets, making them ideal for outdoor or semi-outdoor installations in regions with high humidity, dust, or rainfall, such as Ivory Coast . These racks are typically compact, low-power, and suitable for edge computing, smart city, and 5G applications. Server Simply offers customizable IP65-class servers that can be configured for rackmount, tower, or embedded solutions, allowing integration with existing IT infrastructure .

Key Features to Consider

- **Environmental Protection:** Ensure the rack is fully sealed to prevent dust ingress and water exposure, meeting IP65 standards .
- **Cooling and Ventilation:** Outdoor racks require efficient airflow management or integrated cooling systems to maintain optimal server temperatures, especially in tropical climates .
- **Power Distribution:** Include built-in PDUs and UPS systems to maintain continuous operation during power fluctuations or outages .
- **Structural Strength:** Choose racks with high load capacity and durable materials (...)
