

# Jordanian Co-existing Cable Tray Laying

## Article Overview

Cable tray laying in Jordan involves integrated installation of electrical, communication, and data cables using standardized trays and ladders, executed by specialized contractors and supported by local manufacturers.

### Overview of Cable Tray Systems in Jordan

Cable tray systems in Jordan are widely used for low voltage, medium voltage, communication, and data network cables. These systems allow multiple types of cables to co-exist safely in industrial, commercial, and infrastructure projects, ensuring organized routing, easy maintenance, and compliance with safety standards . Co-existing cable tray laying typically involves segregation of power and communication lines to prevent interference while optimizing space within the tray or ladder system.

### Key Contractors and Manufacturers

- Munir Al Ali & Sons: Provides supply and installation of all types of cable trays, low and medium voltage cables, and technical terminations. They also handle electrical network, communication, and data network cables, along with full cable management systems .
- MASEICO (Al Masoudia Electrical Industries Co. Ltd.): A leading manufacturer of cable trays, ladders, supporting materials, and related electrical components in Jordan. Their products comply with international standards and are used in industrial, building, petrochemical, and power projects .
- Tarkibat Construction Co. LLC: Specializes in electro-mechanical construction, incl...
