

Lao bus connector specifications

Overview

Laos uses plug types A, B, C, E and F with matching sockets. Voltage: 230 V, Frequency: 50 Hz. Type A/B sockets are the most common so our recommendation is a type A/B plug adaptor for maximum compatibility. The primarily activity at this time was the development of Power connectors to deliver connectivity solutions to the Transmission Grids over decades from 10kV applications till now 1200kV Ultra high voltage. All the information and extensive know-how on your product, technical specifications, FAQs, certificates, downloads, and manuals. Amphenol's BarKlip® I/O products provide a convenient and customizable method of distributing high-current power between busbars, cables, and.
