

Latest Price List for Swiss Optical Fiber Communication Cables

Article Overview

Swiss optical fiber cable prices vary by type, fiber count, and supplier, with current market trends showing relative stability after recent global price surges.

Swiss Suppliers and Product Options

CCM Switzerland offers a wide range of high-quality optical fiber cables suitable for indoor, campus, and outdoor installations. Their portfolio includes singlemode and multimode fibers, robust outdoor cables with rodent and moisture protection, and pre-assembled connectors such as LC, SC, and E-2000. Prices are typically project-specific and depend on fiber type, cable length, and assembly requirements, with rapid delivery and technical support available for Swisscom and enterprise networks . Solifos AG provides an extensive selection of fiber optic cables, including air-blown microcables, slim minicables, and high-capacity outdoor cables. Their products range from 12 to 576 fibers per cable, with options for central loose tubes, stranded loose tubes, and rodent-protected jackets. Pre-assembled solutions are also available, and pricing is influenced by fiber count, cable type, and installation method . Volza lists over 338 Swiss suppliers of fiber optic cables, offering both 10m and 100m lengths with single fibers bundled in separate jackets. Volza's platform allows buyers to assess supplier reliability, shipment volumes, and trade routes, which can help estimate pricing ranges. While exact prices are not publicly listed, Volza confirms that Swiss suppliers maintain a robust and dependable supply network .
