

Lc90 Diagnostic Interface

Overview

Includes a VCDS software license and the interface you need to connect to your VW/Audi Group vehicles. Limited to 3 different vehicles (managed by VINs), this interface and VCDS software turns your Windows® PC into a powerful near factory level diagnostic tool for the Do It Yourself. LC90 is powered by 2*18650 rechargeable lithium battery. A USB-Type-C cable is supplied in the package. To shutdown the radio, press and hold the same button. This interface allows for communication between the software and the vehicle's onboard diagnostics (OBD) system, enabling tasks such as reading and. Below you will find brief information for LC-90 MARK-2. This manual describes the digital interface (IEC61162-1) for data output, including AAM, BOD, BWC, BWW, GLL, RMA, RMB, VTG, WCV, WNC, WPL, XTE, and ZTG sentences. It details the output port schematic diagrams and their configurations, along. The FURUNO LC-90 MARK-II is a sophisticated hyperbolic navigation receiver accommodating all features necessary for safe and efficient navigation. Carriage of Loran-C and GPS navigators. All prices shown are in USD. | Terms of Use | Privacy Policy |.
