

Manufacturer of Fiber Optic Ethernet Switches DML

Article Overview

DML is a fiber optic Ethernet switch manufacturer, likely specializing in industrial-grade switches similar to companies like RLH Industries, MarStars, and Westermo.

Overview of Fiber Optic Ethernet Switches

Fiber optic Ethernet switches are designed to provide high-speed, reliable network connectivity in industrial and commercial environments. These switches often support multiple fiber types, including single-mode, multi-mode, Plastic Optical Fiber (POF), and Hard Clad Silica (HCS), and may include features such as Power-over-Ethernet (PoE/PoE+), managed/unmanaged operation, and industrial-grade rugged housings for harsh conditions . They are used in applications like substations, industrial control rooms, traffic control, and surveillance systems .

Comparable Manufacturers

- **RLH Industries:** Offers industrial fiber optic communication equipment, including Gigabit, unmanaged, managed, and PoE Ethernet switches, along with fiber patch panels, converters, and enclosures for harsh environments .
- **MarStars Technology:** Provides a wide range of fiber optic switches for 10Base, 100Base, 1000Base, and 10 Gigabit networks, with options for PoE, managed/unmanaged, and industrial/commercial grades .
- **Westermo:** Specializes in industrial fiber switches with up to 16 fiber ports, supporting Gigabit transmission speeds and compatibility with serial protocols like...
