

Manufacturer of fiber optic cable fusion splicing machines for sale

Article Overview

Leading manufacturers of fiber optic fusion splicing machines include GAOtek, Shinho, Komshine, AFL, and DIAMOND, offering a range of portable and industrial-grade splicers for various fiber network applications.

Key Manufacturers and Their Offerings

GAOtek provides a wide range of fiber fusion splicers designed for field use, featuring fast splicing times (as low as 7 seconds), core alignment technology, low splice loss, and durable batteries for multiple fusion cycles. Their machines include automatic heating, touchscreens, and compatibility with single-mode and multi-mode fibers, suitable for installation, maintenance, and repair of fiber optic networks. Shinho Optics is a Chinese manufacturer specializing in fiber fusion splicers, cleavers, and related optical equipment. Their splicers are widely used in FTTx projects, indoor and outdoor installations, and extreme environmental conditions. Shinho emphasizes robust industrial design, large battery capacity, and stable performance, with OEM options and global distribution. Komshine offers fusion splicers including six-motor trunk fusion splicers, FTTx splicers, and drop cable splicers. Their products are used in communications, railways, power, and research institutes. Komshine integrates R&D, production, and sales, providing reliable after-sales support and technical assistance. AFL provides end-to-end fiber optic solutions, including fusion splicers, connectivity, and test equipment. Their splicers are part of a broader portfolio for industrial, broadband, and data center applications, emphasizing high performance, scalability, and reliability. DIAMOND, Fitel, and Nanjing-SKYCOM are also notable m...
